OTTAWA, June 14.—In the house
of commons this afternoon, Hon.
Frank Oliver asked why it was that
there was a bounty for Ontario oli
and none for Alberta oil. He said it
was much more expensive to produce
cil in Alberta than in Ontario and
there was greater uncertainty. He
pleaded for equality of treatment.
Sir George said the bounty was
placed on the specific gravity of the
oil. He agreed that this should not
be the dividing line. He said that representations had recently been made
to him by Alberta producers and he
had asked for information.

Zine Bounty.

Mr. James Douglas, of Strathcona,
asked that the zinc bounty be continued after 1918. He said that the
smelters did not require a bounty now
but after the war they would need
protection. As the law stood the bounty expired in 1918. It had been represented to him that a large American firm would be willing to open
a smelter in the Alberta gas fields if
they could be assured of the extension
of the bounty for several years after
1918.

In the course of the discussion Sir George intimated that during the four years in which the internal storage elevators had been in operation a profit of about sixty-two thousand dollars had accrued.

Encroachment on Reserve
Hon. Frank Oliver brought to the attention of the minister of the interior a series of complaints regarding encroachments upon the Okanagan Indian reserve in British Columbia. A statement containing the complaints had been made at a meeting in the fall of 1916, and the statement was signed by J. H. Christie, secretary of the meeting. It was stated that a number of outsiders were encroaching upon the reserve, taking the timber away, fencing the ground and diverting the water.

Hon. Dr. Roche said that the Indians on the reserve appeared to split into two factions. He declared, however, that Christie himself was not an Indian and was a most unreliable character. The conditions were being investigated by the inspector at Vancouver.

Mr. Oliver considered that since the

cil tonight, concluded with the above sentence.

"If the government are sincere in their determination to 'concentrate the man power of the nation to the cause of the aliles and democracy, the conscription of man power will follow and not precede that of wealth and the nationalization of every industry necessary for the prosecution of the war." the statement further says.

"The greatest service that Canada can render the allies," the statement says, "is to conscript (not borrow) the wealth of the nation, to take over and operate the mines, railroads, muni-

The first time he went over the parapet he was for tu nate enough to bring back three German prisoners, His general opinion was that Fritz had not much "sand."

In one of his letters and in or much "sand."
In one of his letters he wrote, "There is a terrible lot of digging on this job." In his last letter he said that at the front trenches their privilege was to go unshaved and as dirty as they liked until they got back for "reats," and also to grumble and grouse to their hearts' content.

Pte. Parrett came to Edmonton in 1904 and was well known around Wabamun and Duffield as well as in this city. At the latter place he homesteaded in 1994, and his sister, Mrs. Joe Best, lives there now on a farm. He spent most of his time either helping the neighbors or going "out west," on survey parties, etc., until in 10th, during the fighting which way "west." One who knew him writes: "He was every inch a man." Another writes: "He was like a brother." He was a member of Grace Methodist church in its early days and latterly was a trustee for Hopkins Methodist church at Duffield. His age was thirty-five. He leaves, in addition to his sister at Duffield, a mother and sister in the old country.

Pte. Walker Wright

Pte. Walker Wright, of Lougheed has been wounded twice in the course of the fighting in the western front, but, according to latest reports, he is well on the road to recovery and ready and anxious to take another go at the Huns. Pte. Wright is the son of Mr. and Mrs. Wright, of Lougheed, and was born at Gainford, County Durham, England, He is now 24 years of age. He came to this country with the rest of his family five years ago. With a younger brother he enlisted in the 151st battalon and went overseas in September last.

lon and went overseas in September last.

Pie, Walker Wright was in the first draft to go to France. On January 5th, this year, he and two others, while holding a portion of a trench, were buried for ten hours by the explosion of a shell. By good fortune Pts, Wright's head and left arm were left clear, so that he was able to breathe. The other poor fellows were beyond aid when taken out. He was in the hospital for two weeks as the result of this experience, returning to duty. On February 17th he received a gunshot wound in the left thigh while engaged in a trench raid. He was admitted to the general hospital at Colchester, England, and at the present time is reported to be getting along well.

(By Morning Bulletin Leased Wire)
LINCOLN, Neb., June 14.—Colonel
Theodore Roosevelt, in a speech which
he delivered here today at the celebration of the semi-centennial of the
Matchood of Nebraska; criticized the
national policy of the United States
for failure to protest promptly against
Oerman ruthlessness and brutality,
deplored national failure to prepare
for the war, pleaded for undivided
leyalty to the American flag, denounced the pacificist and asked for genserous support for the Red Cross in
caring for American troops on European battlefields.

"We permitted our national policy,"
he said, "to be swayed by the national
devotions and national antipathies of
men who exercised the rights of Amselves traitors to America by the way
in which they prostituted our citizenship to the interest of Germany or to
their hatred of England.

"It would be impossible to state
the damage done to the moral fibre
of our country by the professional
pacificists' propaganda, the peace at
any price propaganda. The professional pacificists during the first two
and a half years of the war have occupied precisely the position of the
Copperheads during the time of Abraham Lincoln."

COMMISSIONERS OF TRADE FOR CANADA

OTTAWA, June 14.—In the house of commons this afternoon Sir George Foster stated that during the past year two new trade commissionerships had been established in Russia, one at Petrograd and the other at Omsk, in Russia. A commissioner had also been sent to Italy of these commissioners were university graduates who had been given special training for this work. The department also had a young man studying Japanese with a view to later becoming commissioner to Japan.

SECOND READING OF CONSCRIPTION ACT MAY BE ON TUESDAY

Supply.

(By Morning Bulletin Leased Wire)
OTTAWA, June 14.—It is stated that
the second reading of the conscription
bill may not be moved until Tuesday.
In the house of commons tonight
the Liberals objected to going into
committee of supply and the sitting
terminated suddenly and unexpectedly
shortly after 10 o'clock.

Apparently it is the desire of the
opposition to move Hon, Geo, Graham's resolution relative to the conscription of wealth on the motion to
go into supply if post office estimates
are taken up again before the debate
on the second reading of the conscription bill is commenced.

FOR VIOLATIONS OF GOLF RULES

Prize For Discovering Most Infractions In Round Being Given By Western Club.

Putting a premium on discovering the greatest number of infractions of the rules of golf is something unique in the annals of the game, but this is just what is planned by a Western club. The idea is to have a four ball match made up of prominent players, and everybody is invited to join the gallery. The person who discovers the most violations of the rules as interpreted by the Royal and Ancient club of St. Andrews, will receive a sliver plate presented by the club. The infractions are to be jotted down on a piece of paper during the round of the links and turned over to a member of a committee in charge.

With the growth of golf more attention is being paid to learning the strokes than to learning the rules, this in spite of the fact that there are probably more rules to this sport than to any other. The above-mentioned idea is an effort to drive some of the rudimentary elements of the rules of golf into the skulls of the followers of the pastimes and also to determine what percentage of the rules the average golfer knows.

BOXERS WILL ENLIST

Nine out of ten boxers now before the public are unmarried and within the fighting age set by Uncle Sam, so there will be a wholesale enlistment in the army when conscription goes into effect. DEFEATED PITTSBURG ON THEIR HOME GROUNDS

Two Singles by Cincinnati Gave Them Victory Over Philadelphia-Score 7 to 6.

New York Nationals are leading the league again. Philadelphia dropped a game yesterday to Cincinnati and New York otok one from Pittsburg, and are now leading the league with an eight point margin. They have played one more game than Philadelphia.

In the fourth inning Pittsburg had a man on every base but the league leaders kept them there and won by a score of 2 to 0. Good pitching by Perritt and Jacobs featured the game. New York scored her runs in the second innings and were unable to put another man across the plate against the 'all enders.

A single drop by Kopp and a single by Rush scored a run and enabled Cincinnati to win a see-saw game from Philadelphia at Cincinnati. The score was 7 to 5.

At St. Louis Miller executed a triple steal with Cruise and Long in the fifth inning and Hornsby scored a homer in the seventh. Brooklynd dropped this game to St. Louis by a score of 5 to 4.

By bunching hits off Barnes Chicago defeated Boston by a score of 5 to 3 at Chicago in the first game of the series there. Demaree was hit hard.

Sporting Facts and Fancies

Good for Dave Bancroft, the clever shortstop of the Phillies.

Dave is hitting 'em to beat the band these days, a most unusual thing, for while he has always been looked upon as a clever fielder, his work at the bat has not been particularly noteworthy. But it's different now and Dave's batting eye is in fine working order.

Yankee fans are hoping that the Old Hoodee hasn't begun his work again on their favorite team. Gilhooley is out of the game for some time to come; Hughle High had to quit recently because he had a boil on his neck, and so on. Therefore the fans are keeping their fingers crossed in the hope of keeping Old Hoodee far away from Bill Denovan's clan.

Pat French, who recently came from the University of Maine for a tryout with the Athletics, cught to make a valuable addition to Connie Mack's little band. Pat starts work on June 29. He excelled in baseball, football and track athletics at his university.

If anybody says the baseball players are not helping Uncle Sam get in trim for the war, let him come out and be taught the error of his opinions. Jimmy Archer, catcher, and Jimmy Sheckard of the Cubs are the busiest pair of baseball players in any league these days. They are both up at the United States Naval Training station at Great Lakes, Ill., teaching the recruits how to play basetation at Great Lakes, Ill., teaching the recruits how to play basetation at Great Lakes, Ill., teaching the recruits how to play basetation. The arrangements for this instruction were made between President Charles H. Weeghman of the Chicago National League club and the commandant of the training station. Manager Mitchell will therefore have to worry along without his able assistant, Jimmy Sheckard, for a while, at least.

Old timers among the fans will remember with admiration William D. O'Brien, popularly known as "Darby," who was as famous as an outfielder in his day as Ty Cobb is in this. O'Brien was as an outfielder in his day as Ty Cobb is in this. O'Brien was as an outfielder in his day as Ty Cobb is in this. O'Brien was as member of the old New York Metropolitan team, but it was with the Brooklyn Nationals that he made his greatest reputation. It was in this year that the Players' League tried to break up organised baseball. O'Brien played left field for the Dodgers and Jed the club in bat work, his average being 314. He continued to star for several years until death cut short his career. Right here it might be well to mention a few other stars of earlier days who rivalled the accomplishments of Ty Cobb. There was Lipman Pike of Troy, Ed Cuthbert of Philadelphia, Mart King, Dave Eggler, Al Geldney, A. J. Reach, and Jim O'Rourke, all of whom were star performers in the National Association of the early '70s, the parent organization of the present day have a monopoly of stars. There were plenty of them in the old days and they had to play a harder game, too.

1869—Mike McCool defeated Tom Allen in nine rounds on a foul near St. Louis. This battle was declared to be for the world's championship, but, with Jem Mace holding the undisputed English Championship, such a claim had no standing. McCool first claimed the American title after John C. Heenan's retirement in 1863, but he was beaten by Joe Coburn in sixty-three rounds at Charleston, Md. Three years later McCool beat Bill Davis, the Californian, at Rhodes Point, Mo., and became the champion. Tom Allen of St. Louis, after defeating a number of good men, including Bill Davis, in forty-three rounds, challenged McCool. Allen and McCool met, and according to all accounts, the former had the best of the match, when the referee awarded the victory to McCool on an alleged foul committed by Allen. Few fight fans accepted the verdict and Allen was hailed as the American champion. He fought for the world's champion against Jem Mace in the following year in Louislana, but was defeated.

1912—Young Dyson knocked out Eugene Trickle in four rounds at Liverpool.

DAY WAS THE MOST SULTRY OF THE YEAR

Temperature Within One Degree Of Record But Humidity Was Uncomfortable.

It wasn't the hottest day of the year yesterday—according to the weather man, who is invariably a truth teller—but it was certainly the most sultry and uncomfortable. The official thermometer registered 77 degrees above zero at 4 o'clock. One day in May it climbed up to 79 and that one degree constitutes the record to date. But the combination of humidity and a high, gusty w' d which brought no relief to perapt: a humanity and which peppered one with dust and grit, made the coming of evening and the consequent drop in temperature most acceptable.

Citizens who wielded the hoe in the attempt to encourage wilted looking seedlings and women who toiled over the wash tub and dish pan alike suffered from the oppressive heat.

On the streets dealers in ice cream and cold beverages did a thriving trade and white was the only wear for those who aspired to be really "I T." A few more days like this and the exodus for the coast, the mountains and the lakes—for those who have the price—will be off to an early start.

The worst of it is the weather man can offer no hope for today. "Continued warm," he remarks and every sign points to just that. Last night a bank of black clouds came roiling up from the West and it looked as though we were going to be refreshed by a thunderstorm. Dame nature thought better of it, however. The clouds dispersed without a drop or a grumble, and at 2 o'clock in the morning the stars were shining brightly and no more alarming sound than the squawking of the flitting night birds came from the heavens.

Put on your summer flannels, load the refrigerator with ice and forget your worries is good advice for today.

Fort McMurray, Alta., June 13—The Hon. A. G. MacKay, Liberal candidate for Athabasca, addressed tonight one of the largest public gatherings ever assembled at this place, in the Gordon hall. Mr. MacKay spoke interestingly and convincingly on the present issues. Noticeably every eligible lady voter in the place was present. The meeting altogether was a big success. Mr. MacKay and Mr. Mills arrived over the A. & G.W. getting here at T p.m., and loft at midnight on return trip by beat, going as far as Christina, thence by the A. & G.W. to Lac La Hiche where Mr. MacKay will address the people Thursday night.

AT FORT McMURRAY

A train load of coal leaves Cardiff each night which is somewhat unusual for this camp during the summer months. Strict attention is being paid to clean coal with the result that a very high grade of black diamonds is being shipped, large quantities going to industrial centres outside the province. The Cardiff Collieries Co. is making good progress with its new tipple to replace the one destroyed by fire and it expects to be doing business as usual

Residents of Edmonton and district who imagine they are being treated with discrimination in the weather being handed out to them will find consolation in reports coming to the fruit shipping firms who do business with the states lying south of the border. Here is one coming to the Brown Fruit Company from Kenewick, Wash, Kennewick lies along the Cojumbia river and has built up a great reputation for its strawberries:

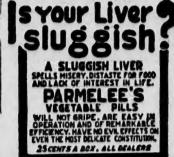

"The berry crop in this territory this season has been a bitter disappointment. From all indications now it looks like the crop will only total 5 per cent of what was expected three weeks ago. This failure is on account of the severe spring and frosts we had in the early part of the season. The very severe weather we have had during the last ten days only aggravated matters until new there are only a few berries on the vines."

The same complaints come from British Columbia fruit shipping points on the west and from Prince Edward Island on the cast. The cherry crop, which should have been on the Edmonton market by June 19th, will not commence to arrive here in quantities before the first of next week.

OFFERS DRINK TO CONSTABLE AND GETS \$300 FINE

Fred Charron Finds it Expensive to Have Liquor in His Possession

Fred Charron offered P. S. Forster a drink of liquor early Thursday morning at 117th sireet and Jasper avenue, and in the police court the same morning was fined \$300 and costs or three months in Jail, for his attempt to administer good cheer. He was charged with illogally having liquor in his possession. This is the second conviction against Charron.

The accused, in company with two others were driving along the south side of Jasper avenue in a wagon and traveiling eastward when they saw the constable. They crossed the road and hauled out the bottle and offered him a drink. The constable made a search of the wagon and found another bottle of liquor partly filled.

The crussde of the police against speeders is daily filling up the police court docket. Thursday merning ten persons appeared before Magistrate Barclay, charged with breaches of the Motor Vehicles Act. Six of them were fined \$3 and costs, two dismissed, one adjourned and one was fined \$1 and costs. Magistrate Barclay announced that the fines next week will go up to \$5 and costs and will increase every week.

ASSESSMENTS CITY PROPERTY

Small Number of Objections Show Situation Is Becoming More Satisfactory.

That assessments this year are more in accord with public opinion is shown by the reduced number of appeals against assessments received this year.

C. Commissioners, sitting as a court population of Thursday morning, had before them a list of 165 appeals, which is the lowest number received for the last six years. Last year there were 409 appeals and in 1915 the number was no less than 1040.

The whole of the list was called on, but the court was continued during the afternoon in order to give some of those not able to be present during the morning, the epportunity eo state their cases.

the commissioners would go into the matter.

P. C. Dwyer of the Northern Investment Co. appealed against the assessment of lot 56, river lot 6. This property was reduced last year from \$50,000 to \$40,000. The matter was adjourned for further consideration.

City Could Take Property

G. G. Montgomery, protested against the assessment of his property in Belmont Park and on being told that no reduction could be given said that he would take it to a higher court, and then if he got no satisfaction they could take the property. Mr. Montgomery also said that he was due a rebate on his 5th street east property which the city had not yet paid.

An Interesting Point An Interesting Point

An Interesting Point

An ather unusual and intersting point came up during the course of discussion between Mayor Henry and a representative from Messrs. McDonand & Tighe, who were appealing against the assessment of the property of F. J. Hunter, lots 41 and 42, block 10, H. B. R. This is property on which damage claims on account of the C. P. R. subway construction have already been paid by the city, and the point raised was whether property on which a damage claim had been paid for on account of alteration of grade was entitled to sak for special consideration in the way of assessment on account of this alteration of grade. Mayor Henry contended that in this case the change of grade was not such but that it could not have easily been rectified, and that a portion of the amount paid for damages could have been used for this purpose, making the property in as good a position as it was originally.

Church Must Cooperate With Y.M.C.A., Says F.M. Black at Annual Meeting of Local "Y"

Member of Utility Commission Makes Stirring and Interesting Address—General Secretary Green Tells of Splendid Work of Boys' Department—Financial Statement Is Most Satisfactory.

What the Churches Can Do

and the new interpretation of 1. A. "You Must Come Along."

Secretary Green Talks

The general secretary, W. J. Green, told of the splendid work that had been done by the members of the Y. M. C. A. boys' department, who were taking care of the gardens of some of the women of the city whose husbands or sons are at the front. The boy who started the gardening stunt a few years ago is now overseas with the army. The life of the community is enriched by what we put into it. All must contribute in some way their part to help win this war. Several of the Edmonton Y. M. C. A. are now overseas dispensing cheer to the men in khakt, and one, Mr. Harlow, is on his way to Mesopotamia to work with the army there.

the army there.

In conclusion he urged all men, and the boys who will soon be men, to so work as to make Edmonton a better Edmonton, a city of which we all shall be proud to call our home.

to so work as to make Edmonton a better Edmonton, a city of which we all shall be proud to call our home.

The Banquet

As a preliminary to the annual meeting a banquet was served in the gymnasium by the ladies of the Red Cross Society. The president, J. E. Brown, presided over the program of speeches that followed. The minutes of the previous meeting were read by Secretary Green and adopted.

The financial report, presented by T. M. Turnbuil, showed a substantial surplus of assets over ilabilities and a cash balance on hand. It is the intention to have the financial report printed in detail and distributed to the members of the association.

The report of the physical department showed an increase in the work for the boys and the members of the various battalions that had been located in the city during the period. The swimming baths had been well patronized even by the younger boys, and on specified occasions by the ladies of the Y. W. C. A. The benefits of the work of the physical department cannot be estimated in dollars and cents, for there has been an inestimable influence on the physical and and moral development of the citizens as a result. The city of Edmonton as a whole owes a debt of gratitude that cannot be paid. The Y. M. C. A. has done and is doing valuable service to the manhood of the city.

W. G. Carpenter told of the work of the intercollegiate Y.M.C.A. with its phases of activity including Bible study, religious meetings, mission study and contribution to the support of a missionary at Yokohama, its welcome to new students and its holding of Sunday services at the University.

Dr. E. W. Shelden reported the work of the military Branch Work

That everything he has that is worth while in life he owes to the Y. M. C. A. was the heartfelt testimony of F. M. Black of the Abberta utilities or commission, who was the chief speaker at the annual meeting of the members of the Y. M. C. A. at their banquet in the gymnasium Thursday night.

When he was a boy of 16, said Mr. Black, he went to London. He felt the loneliness of the great city and fully appreciated the welcome hand that greeted him at the Y. M. C. A. He had found the churches dark, closed during the week, open for a few hours on Sunday, when the preacher talked at him.

But at the Y. M. C. A. he was made welcome and through its influence he decided for himself that the things well worth while was service in a religious Christian life. Thanks to the mental, moral and physical training and exercise he had received at the Y. M. C. A. he had been able to weather the strenuous experiences of a family and business life without any breakdown.

Later he had acted as assistant secretary at a branch Y. M. C. A. at an inght, after working at business all day. He believed in the Y. M. C. A. and was grateful for its influence on his life. His own son had assisted at the Y. M. C. A. at Rercee camp.

The boys themselves contribute and edit articles appearing in the boys columns of the local papers, and through this means the citizens will be kept in touch with the activities of the various boys' clubs of the city.

In a few years, owing to the great drain of the war upon Canada's adult manhood, the managers of Canada's business concerns will be drawn from the ranks of the boys of today, now at the 'teen age.

The chairman added that the boys of today must be prepared to take up their life work quickly, for neverbefore did the boys of Canada have such an opportunity or responsibility as lies before them as the result of the war today. The Edmonton Y, M. C. A. was one of the most vigorous and promising boys' departments to be found in Canada.

An enthusiastic vote of thanks was extended to the large number of persons who, although not members of the association, had contributed so willingly throughout the past year to the carrying cut of the association's plans and program of concerts. Special appreciative words were expressed in regard to the work of the ladies, the local artists and the soldiers.

The meeting concluded with a hearty singing of the national anthem.

Justice Scott of the Supreme Court Thursday quashed the conviction against Mrs. Mary Lederoute. Mrs. Lederoute was charged before Mrs. F. Murphy, in the women's police court on May 18,1917, with illegally having liquor in her possession in suite 1 and 2, Hutchings block, on May 15.

She was convicted and fined \$100 and costs. Her counsel, Gordon Winkler, of Robertson, Winkler & Co., appealed the cass. Judgment was given by Mr. Justice Scott on the ground that as the liquor was not found in the defendant's rooms, but in the women's lavatory in the block, the defendant was not rightly conviced.

Twenty-five dollars was voted to the Red Cross. Although the regular business meetings have ceased it was decided to carry on the Red Cross work as usual. The members have been very busy getting parcels made up to send to the Duchess of Sutherland hospital. The packages will be sent off next week and contain such things as smokes, candy, writing pads, comfort bags or "housewives" as they are generally called, and one novel item, which each of the members has made, a scrap book which contains all sorts of things to cheer and to read. After the business was concluded, afternoon tea was served and the ladies were all agreed that it was one of the "nicest" meetings of the year.

Queen Sofie of Greece

It may be that history will hold Sofie, quren of Greece, responsible for the downfall of a dynasty, for the throne of King Constantine, her royal husband, has been tottering these past two years, and which has just collapsed. It is said that she is in a great measure responsible for the pro-German sentiments of the Greek court and the reason is not far to seek, for the Kaiser is her brother. Queen Sofie was born in Berlin June 14, 1876. Before her marriage she was the Princess of Prussia. Her mother was a daughter of the late Queen ictoria of England. Princess Sofie was married in 1889 to the Duke of Sparta, who succeeded to the Greek throne upon the death of the late King George of Greece. There are five children by the marriage, Prince George, now prince royal, having been born in 1890; Prince Alexander, born in 1895; Princes Helene, born in 1895; Princes Helene, born in 1895; Princes Helene, born in 1896; Prince Alexander, born in 1896; Prince Paul, born in 1901. The youngest child of the royal couple is Princess Irene, 13 years old. It may be that, for all the successors there may be no throne to succeed to. Kindness Shown To Birds Whose Nests Had Been Disturbed

A bit of kindness was displayed yesterday on Queens avenue that demonstrated the tenderness that exists in the hearts of ordinary men.

An awning that had not been used since last fall was being lowered and the home nest of a pair of English swallows fell to the sidewalk. There fluttered from it a couple of half grown birds that lustly voiced their surprise and indignation at being thus rudely disturbed. The mother bird, frantic for the well being of her infants, cried piteously. Two or three men who were passing huriedly by stopped and after considerable trouble found a stepladder to aid in replacing the disturbed home.

A few infantes after the nest had been restored to a secure place in the cornice the mother bird could be seen bringing foed to the howling offspring and the father bird twittered vociferously as if saying: "See how I've helped"

VARIETY'S BIGGEST MUSICAL ACT IS AT PANTAGES NEXT WEEK

There are musical acts and musical acts and audiences and more audiences. Some like novelties, some like comedy, others music, some sketches, others acrobatic turns. There are lots of folks who don't care especially for musical acts with the girly flavor. To these persons "The Mimbe World," which comes to the Pantages theatre next week as the headline attraction is especially recommended as thirty children are in the turn, including twenty-two chorus girls. This aggregation is reputed to be the best juvenile act in America, barring none. They have played in the largest vauderille cheatres on the American continent from the Palace and Colonial, New York, down the seale to vauderille houses that could barely stage their act with no room to spare, and without exception they have conquered their audiences with little trouble. When "The Mimie World" comes to the Pantages most week the youngsters will give an entertainment lasting more than an hour and including variety in its best form. The young players are adopts at imitation of their ciders and impersonation of famous stage stars, while the musical features of their performances have long features of their performances have long features of their performances have long please are adopts. There are other acts on the program, however, faciluding Joe Roberts, the banjofiend who has made such a favorable impression on previous visits here; the Laupinis, comedy illusionists, and other turns of equal merit.

Photoplays

"The Whip," the greatest motion pleture melodrama in the world is coming to the Empire theatre next Monday afternoon for an engagement of one week with daily matinees, and is assured in advance of a remendously enthuslastic reception as this production has everywhere been acclaimed the masterpiece of the silent drama. When this play was originally produced on the tage, it was produced in such a massive manner that it stunted growth for years to come. Now that the motion pictures have taken it up, it is being shown in an even more startlingly realistic manner than it was shown on the stage. The Weip" in motion pictures is an epoch making production in many respects.

MORARCH—Mary Pickford in "A Romance of the Redwoods," staged under the personal direction of that well known prodicing genius, Ceel B. DeMille, creator of "Joan the Woman," is attracting some of the inregest crowds to the Monarch this week in the history of that theatre, to whom it is proving a treat of no small proportions. The Pickford-DeMille affillation should result in one of the greatest whom it is previous that the proportions. The Pickford-DeMille affiliation should result in one of the greatest sorrent friumphs Arteraft has ever presented and judging from the attendance this week it more than fulfills every expectation. When Miss Pickford left New York for California, she announced that she had a big surprise in store for her many friends and shortly thereafter the significance of her promise became apparant when it was learned that she had enlisted Cecil DeMille to direct her new Arteraft picture.

Coming to the Monarch theatre next week is the latest Selanick-Picture with Norma Talmadge in the leading role. The film is "Poppy." A filmitation of the novel of the same title by Cynthia Stockley. It is a story of South Africa which has caused more comment among discriminating film patrons during the last three months than perhaps any motion picture that has been produced. It is a novelty in several respects, but treats of a subject that has been generally shunned by motion picture producers.

EMPRESS—Like some of the other recent subjects from the William Fox studies, "Hypocrisy," which was presented at the Empress theatre yesterday for a three day rue, contains a pleasing amount of comedy relief, although in the main it is a domestic drama described for the folly of a young wife, and of a certain portion of se-called high scolery which lives by bluff and hypocrisy. It is putting emphasis in its proper place to say that the handling of comedy in this picture is in a class by itself, and compares most favorably by itself of the peace roused at midnight to perform a marriage, show considerable skill, and capture the suddence without difficulty. Virginia Pearson has the leading role and it is one mest happly suited to her. Her beauty is admitted in all quarters, and in this as in her pravious works she makes a magnificant proporably in the program with a few by the proporably interest througho

MAJESTY—The offering today is as usual a large one and makes a full two hour show, and one that will hold your interest throughout. The Red Feather feature is an exceptionally good one and stars Herbert Rawlinson. The is too well known to need any introduction. "The Scarlet Crystal" is a play taken in Mexico and ff full of punch. It is a society drama with a few Mexicans mixed in to give it an extra thrill here and there. On the same program is the L-Ko Komedy of two reels. Universal Weekly with the upto-date military news of the United States and last, "The Voice on the Wire," the greatest thrille of them all. The program will be shown eggain tomorrow.

DAEANLAND—Hurry and Worry are good things to keep away from. Many accidents have been caused by hurry. Many serious so-called nervous break-downs can be traced to worry. Take a "tip" from one who knows. Get your seats early for the Dreamland Theatre on Friday and Saturday and avoid the hurry and worry you will have to go through if you fail to do so, as the attraction is the much-taiked-of "The Gilded Cage," with Alice Brady as the star. A story of love and intrigue, laid in a quaint old principality which is at least a hundred years behind the times, gives Miss Brady the best opportunity she has had in quite some time to display her talent of unusual dramatic expression. In selecting the supporting cast and in the costuming and fine stage settings, money was not permitted to be a consideration and the production is a striking one. The demand for the play has been great and the management had trouble in procuring it for this early daic, but in keeping with its policy of giving its patrons the best and the earliest service procurable, the drama can be seen here on the date mentioned above.

Washington, June 14.—President Wilson warned the American people in a Flag Day address on the Washington Monument grounds today that Germany has carried into effect the greater part of her immediate plan of conquest and now is negotiating a new "intrigue of peace" designed to end the war while her aggressions are secure.

All the central empires, the President declared, have been cemented into one great autocracy-ridden empire, "throwing a broad beit of German military power and political control across the very centre of Europe and beyond the Mediterranean into the heart of Asia."

"This achieved, he said, "it is easy to understand why Germany is fostering propaganda for an early peace."

"Peace, peace, peace, has been the lalk of her foreign office now for a

This case has been appealed.

SUPREME COURT

Canadian Equipment Supply Co. vs. A. T. Cushing, receiver of the Estate of Grady Brothers. His Lordship Mr. Justice Ives handed down judgment in

A. T. Cusning, receiver of the Estate of Grady Brothers. His Lordship Mr. Justice Ives handed down judgment in this action ordering that the plaintiff pay the defendant's costs and also the cosis of the sheriff, and further granted that the plaintiff and the Canadian Western Manufacturing Supply Co. as a party plaintiff to the issue.

This was an action to recover the sum of \$3,951.05. A MacLeed Sinclair for the Plaintiff; H. H. Parlee, K. C., for the defendant.

Mr. Justice Ives is hearing the case of Joseph Larose, James R. Harper and Edward W. Johnston vs. Ocean. Occidental and Guarantee Co., Ltd. Capital Coal Co. and Pierre Gervals, which is an action to recover the sum of \$4,314.03 by virtue of an unsatisfied judgment.

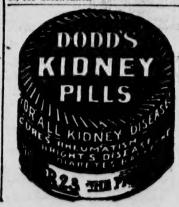

It appears that on or about the 6th of March the plaintiffs secured judgment against the defendants, Gervals and Capital Coal Co. At the time of judgment against the defendants of judgment abond was given and the bond was transferred forthwith to plaintiffs.

The defendants deny the execution of the said bond. They deny recovery of judgment against the defendants. They further deny that the said bond had been transferred and no notice of transfer had been served on them. In the alternative the defendants claim that they settled the judgment in the following manner: An appear was pending and an agreement between the parties that the appeal should be dropped and that Larose and Harper should resume operation of the mine and machinery and that a mortgage for \$5,500, including the \$4,000, should be given and a further sum of \$1,500 should be advanced Larose and Harper.

The case is proceeding.

E. B. Woods. K.C. S. W. Field for Larose and Harper.

The case is proceeding.
S. B. Woods, K.C., B. W. Field, for plaintiffs; Frank Ford, K.C., H. H. Parice, K. C., and E. B. Edwards, K. C., for defendants.

BRITISH SINKING THREE SUBS A WEEK

Statement of Arthur H. Pollen, British Expert on Naval Gunnery

New York, June 14—Arthur H. Pollen, an English expert on naval gunnery, whose articles in Land and Water are credited with having helped to force the reorganization of the British admiralty, has arrived in New York to give a series of lectures on the war.

York to give a series of lectures on the war.

In an interview, Mr. Pollen said the British admiralty is using every means to overcome the submarine but whether the danger was diminished or not would make no material difference in the final outcome.

"From what I have been told by those in a position to know," Mr. Pollen continued, "the British admiralty has captured or sunk three German submarines a week since the beginning of February, and in one week I believe the average was one a day. I had not learned before I left England what progress had been made with the new method of destroying U-boats by mines as they left their own waters, but I believe that it has proven successful. The Germans are putting out three new submarines a week, which about equals the destruction of the craft by the Brittsh."

Miss Sylvia Swanson, Theodore, Sask., writes: "I am letting you know what great value your B.B.B. has been to me. A year ago I started to grow pale and weak, the cause being bad blood. I got so many pimples and boils all over my face and body that I would not let strangers see me, and I used to avoid company. I tried many remedies but all seemed a failure. I read about how good your B.B.B. had been to thousands of people so I got a bottle and after I had finished the second one my pimples and boils had all disappeared. A FAILURE.

Sir George Foster says the fuel ation in Canada is so serious to ealt for "prompt and vigorge and consequent privations re to be avoided." That is in enough, and has been for ne time. What is new in the councement is the official adsion that the National Service stem, which was supposed to ep coal mines and other "basic idustries" in operation, has en an absolute failure.

That bethe situation, the duty of Parent would seem to be to rethat the measure be submitto public for approval before put into force. Canada needs pulsory service. But it does need civil war.

A MISTAKE AND A CRIME.

The declaration of Dr. Robertson before the Canadian Club, that millions of people are likely to starve to death next winter in Europe and America, is so startling as to be scarcely believable. But it comes from a man who is regarded as an expert in such matters and who has had exceptional opportunities for learning the facts and gauging the pros-pects. The lack in Canada of a national service system with something more than wind behind it is not only a national mistake, but a veritable crime against civilization. The world's food shortage presented Canada with an opportunity such as it never had before, and an obligation as grave as can ever rest upon any people. But that opportunity has not and could not be met, nor that obligation discharged as it should have been discharged, by a national service system which did no more than politely request men to stop frittering away their time doing nothing or doing unnecessary things and to "get busy" on the things that count. The situation called for regulation backed by authority. It has not been met by the circulation of post cards and the discharge of platform fire-

The response to this from us action if subsequent short- a good many advocates of manhood conscription is not by any means reassuring, especially the response from papers supporting the Government which is applying manhood conscription. This response is in effect a demand that those who talk about conscripting wealth shall define precisely what they mean by the term, and that until they are prepared to do that they should keep silent on the subject. That is hardly the sort of reply the situation calls for. It is not possible for any man to say led London, with more terrible off-hand to what extent or by what rule wealth should be conscripted, or could be fairly conch the German people that such scripted. Not to the moors—O lad, I wonder whether
The gorse is all abloom while we together
Feel on our faces now the winds from the Westland blow.
Going west, O my comrade, On a still road—a dark road—oh, not a road we know—

Reply to Poison Gas

From Montreal Daily Star.
Fourtoen miles of Germans sailing skyward propelled by a charge of one million pounds of explosives is an almost adequate reply to the poison gas of three years ago.

From Omineca Heraid, New Maselton, B.C.
Just to show their patriotism and
their consideration of the people's
bank roll, the railways propose that
parliament permit them, as a war
measure, to boost both their freight
and passenger rates. This is a case of
war on the people.

How Money Can Be Saved
From Montreal Daily Star:
The Minister of Agriculture points out that it would be wiser for Canada to export her potatoes if she can get \$7 per barrel for them, and eat cheaper foods. However wise the advice, that is one thing that Canadians have not yet learned to do. We will save much money when we, as a nation, learn what luxuries really are.

Even Our Navy Has Its Limits
From The Scotsman.

We relied on the strength of our ravy to secure us against the risks of starvation; and made this one of the grounds for the rejection of such proposals as the establishment of national granaries. The navy has done marvels.

In the second as yet been able to cope Stat it has not as yet been able to cope with a method of warfare which has adopted and aggravated the spirit of piracy, and directed its hidden and treacherous weapons against non-combatants without scruple or restraint.

Can't Loaf in West Virginia

From Calgary News-Telegram: Neither hobo nor millionaire can re-main idle in West Virginia while this The legislature has written upon the

The legislature has written upon the statute books a law which permits the authorities to put to work on farms, roads or digging ditches any ablebodied male person between the ages of 16 and 60, irrespective of color or wealth, who does not put in at least 36 hours each week at some lawful and recognized employment.

The law goes out of its way to explain that the possession of money, property or income is no defence for loafing.

Loafing in West Virginia may become a lost art in both high circles and low. A national anti-loafing law would make the labor shortage less serious.

Conscription Discussion

From Sydney Record:

In one of his speeches in Washington a few days ago Right Honorable
A. J. Balfour reminded those who heard him that representative assemblies do not make great departures in public policy at the waving of a wand and frank discussion is of the essence of democratic government. The truth which Mr. Balfour spoke should be taken to leart by the Canadian people at this time above all others.

The conscription proposal which is to be considered by the Dominion's representative assembles at Ottawa involves a great departure from the traditional policy of the nation. It cannot be adopted at the waving of any wand. There must be full and frank discussion of it; otherwise there will be danger in its adoption.

But strangely enough there are those who would deny either the need for this discussion or the people's right to have discussion.

a comprehensive and common sense understanding of questions that the leading men have been fooling themselves over and attempting to fool the rest of the people with. Just now man is on trial. He must prove himself worthy of making and enforcing laws or the hand that rocks the cradle will also run the government.

DEVELOPMENT AT TELKWA.

The Tonopah Mining Co. have promising silver-lead prospects. One vein is particularly rich in grey copper. The trail from the Santa Maria road has been finished and now supplies are being packed in for the preliminary work. The summer will be spent in proving up the ground and preparing to ship ore in the fall and winter. Should the ore be in sufficient quantity the company has important plans for both mining and transporting to the railway. Instead of using teams they will bring in several power trucks built on the caterpillar plan. By using trailers each engine can handle ten tons and make better time than teams and travel all seasons and in all weather. The Tonapah Co. will use the Santa Maria road for sixteen miles and will have to build twelve miles of new road.—Omineca. Herald, New Hazelton, B.C.

B.C. FUR CROP.

B.C. FUR CROP.

The raw fur crop for British Columbia the past season is estimated at a million and a half dollars. The current year will be even larger. From this district and further north comes a goodly portion of that fur. Fox skins have been secured here in greater numbers than in most districts and some of the boys made good stakes last winter—Omineca Herald, New Hazelton, B.C.

RESIGNS POSITION

Ottawa, June 14.—Dr. Eugene Paquet, M. P. for L'Islet, has resigned his position as whip of the Quebec wing of the Conservative party. The resignation is understood to be due to the introduction of the military service bill.

Government Intends to Impose Tax comes Above Ce in Amount

Ottawa, June 14—The government has decided to broaden the basis of taxation for purposes of the war. It is intended to impose a tax on incomes above a certain amount and qui'e probably go further. The enforcement will likely be next year.

Under the law as it stands at present the government gets one-fourth of husiness profits between 7 and 15 per cent. 8 1-2 between 15 and 20 per cent, and 3-4 above 2° per cent.

Last year's taxation was substantially productive. By its operation three firms contributed amounts in excess of \$600,000, two in excess of \$300,000, four above \$200,000 and ourteen above \$100,000.

The income tax, which is now proposed, it is explained, will yield a considerable sum when it is put into operation.

CHINESE HOUSE DISSOLVED.

Pekin, China, June 13—The presidential mandate dissolving parliament has been signed by Chiang Chao Chung as acting premier, he having accepted the post, which Dr. Wu Ting Fang, former ambassador to the United States resigned.

It is believed that the dissolution of parliament will bring about civil war as the leaders in the southern provinces have notified the president that they no longer recognize his authority despite the fact that the president has issued a long mandate attempting to justify his action in issuing the dissolution mandate.

Chiang Chao Chung was chief of police in Pekin.

10 LIVES PROBABLY LOST BY EXPLOSION

Many Workers in Brooklyn Factory Were, However, More or Less Injured

New York, June 14—Thirty-six persons were unaccounted for this morning when search was begun of the ruins of the seven-storey mixing building of the American Sugar Refining company's plant in Jamesburg section of Brooklyn, which was ripped apart last night by an explosion. It was believed that half of these were foreigners who escaped and fled to

was believed that half of these were foreigners who escaped and fled to their homes.

Fire, following the explosion, was not brought under control until early today, and the firemen and volunteer rescuers were unable to enter the wrecked building in search of the dead. Of the scores of workmen who were taken to Brooklyn hospitals, one died last night and many others were not expected to live. Not more than 100 of the 500 men in the building at the time of the explosion escaped serious or filtor injury.

After the search had progressed a few hours the authorities expressed the opinion that the loss of lives would not exceed 10. Two men are known to be dead and three of fifteen persons in hospitals may succumb to extent the works would not exceed 10.

persons in hospitals may succumb to injuries. The property loss was estim-ated at \$1,000,000.

FOR MINIMUM WAGE Winnipeg, June 13.—At the Mani-oba Methodist Conference, which con-cluded today, a resolution was adopted orging that a minimum wage for women and kirls of \$9 per week be es-tablished in Manitoba. Conscription of men and wealth was also urged.

HOCKEY PLAYER WOUNDED.
Ottawa, June 14—Angus Duford, the former sensational forward of the Ottawa hockey club, has been danger-ously wounded at the front. Duford went overseas last year with one of the local batteries. He was in the Vimy Ridge battle but escaped uninjured.

WINNIPEG CASE

WINNIPEG GRAIN MARKET.
Winnipeg, June 14.—Cold and unsettled weather over practically the whole of the spring wheat belt, with high winds, but little rain, was reported today. Liverpool, dull and easy, with better arrivals. Winnipeg October was not opened at 10 c'clock. July oats unchanged at 60%c and October %c higher at 50%c.
Chicago wheat opened is down for July

Minneapolts opened unchanged for July at 2.55.

Minneapoils opened unchanged for July at 2.55.

There were 741-cars inspected at Winnipeg out of which 2.56 were contract.

The wenther over the west was generally fair and clear. Very little rain was reported.

Wheat markets were generally weaker, mainly on good reports of conditions in a spring wheat states.

Winipeg October opened %c higher and closed 3%c lower. July oats were down 1/2 and October 11/c. July flax was 2c lower and October 11/c down.

Minneapoils July broke 21/c and September 7/2 lower. July corn was down 2%c: September 4%c and 4%c.

The cash situation showed increased demand on the part of the government agents, who evidently have large tonnage to fill during June. Stocks at Fort William are being rapidly depleted and forward inovement is not so large as had been hoped for. Mills, both east and west, were after more wheat. There was a big trade in oats, one export house taking over half a million bushels, and there were other buyers.

CHICAGO GRAIN MARKET

other buyers.

CHICAGO GRAIN MARKET

Chicago, June 14.4—Reports of large world shipments of breadstuffs gave the wheat market today a downward impulse. It was said many more vessels for commercial purposes had been released by the entente aliles. Opening prices, which ranged from \$\frac{1}{2}\$ to \$2\frac{1}{2}\$ to commercial purposes had been released by the entente aliles. Opening prices, which ranged from \$\frac{1}{2}\$ to \$2\frac{1}{2}\$ to where, with July at \$2.30\$ and September at \$2.05, were followed by a slight rally and then a descent further than before.

Predictions of fair weather sent corn values downgrade. Declines, bowever, were checked by seasity rural offerings. After opening \$\frac{1}{2}\$ to \$0\$ to \$2\frac{1}{2}\$ tup, the market underwent a sharp reneral setback and then secred a moderate rally.

Cuts eased down in sympathy with corn. A big decrease in stocks at Minneapolis, though, exerted a stendying influence.

Buying, that was ascribed to packers, tended to uphold pork and ribs. Lard showed weakness owing to a likelihood that an increase of the warehouse stock here would be reported tomorrow.

Crop conditions were generally favorable.

Many reports were received indicating improvement in Kansas where the yield, it was said, would be more than \$2,000,000 bushels in excess of the amount suggested by the government June figures. The market color of \$7\frac{1}{2}\$ clower, with July at \$2.25\$ and September at \$2.60.

The election passed off very quietly although considerable interest was shown by the people. The ladies, as well as the men, took a good deal of interest in the meetings prior to the election and turned out with every confidence to cast their votes for the better man. The result was not a surprise, being a majority of 13 in favor of Mr. Beaudreau.

It was a very business-like idea of the ladies of the local Red Cross branch to hold a sale of home-cooking and serve refreshments on election day. A great variety of eatables were provided by the members and others

day. A great variety or entables were provided by the members and others who are interested in this most necessary work and a suitable tea room was procurred adjoining the polling booth. By the time the results were declared in the evening everything was sold and and the handsome sum of \$5.00 was realized to be forwarded to the Ed-monton branch. The ladies of the Red Cross wish to thank all those who so kindly helped to make this sale such a successful and pleasant undertaking.

So, telling Norse Jane Fuzzy Wuzzy, his muskrat lady housekeeper, that he was going out to get a new hat, away hopped Uncle Wiggily, over the fields and through the woods until he came to the green meadow.

In the middle was a little grove of trees, and half way there Uncle Wiggily heard a sad little voice saying:

"Oh, dear! What trouble I'm in!"

"Trouble!" cried the bunny gentleman twinkling his pink nose. "Hal That sounds like old times! Let me help some one. But who is it?"

"It is I. The little Dormouse," was the arswer, and, looking down, Uncle Wiggily saw the tiny creature who had been at the queer tea party when the Mad March Hare smashed the Haiter's 5 o'clock watch.

The tail of the poor little Dormouse was caught fast in between two stones and she was very thankful to get out. "I was afraid I'd be late," she said. "I have to hurry on to help the Queen of Heal's put sugared cheese on the larts for the King's birtrday. I'll see you again, Uncle Wiggly.

"I have to harry on to help the Queen of Hearis put sugared cheese on the tarts for the King's birthday. I'll see you again, Uncle Wiggily.

"I hope so," spoke the bunny uncle, as he hurrled away to get his new hat, all the while wondering whether or not he would see Alice from Wenderland. Unclya Wiggily reached the green meadow trees, but no one else was there. He looked up and down and all around, but there was not even an old hat in sight, to say nothing of a new one.

new one.

"I wonder if this letter is an April fool joxe?" thought the binny uncle, taking from his pocket the envelope Dickle had given him. "No, if it's the month of June it can't be April Fool's lay, any mere than it can be time for valentines," said the bunns. "But I wonder where my hat is?"

Itardly had Uncle Wingily said this, cut lord, than, all of a sudden, a voice cried:

cut lord, than, all of a sudden, a voice cried:

"Here's your hat!"

With that something seemed to drop down from the clouds, or maybe it was from one of the trees. But whatever it was it completely covered Uncle Vilgally out of sight. It was just as it you took a large bowl and turned it unside down over a grasshopper, only, of course. Uncle Wiggily was not a grassbopper, though he did jump around a lot.

And, at first, in the sudden dark-

"Yes, this is a hat!" said Uncle Wig-gily to himself. "But what a funny way te give it to me! And it's so largo! Instead of my new hat going outside my head, my head is inside the hat. This will never do. I must get out and see what the trouble is. This must be the elephant's hat, it's so

But when Uncle Wiggily tried to lift up one edge of the hat, to crawl out, he found he could not. Some one seemed to be sitting on top of the hat, which was shaped like the silk stovepipe one Uncle Wiggily ailways were. And a voice cried:
"Hold it tight and he can't get out"
"Oh, I'm holding it tight!" was the

WHY PEPSIN, PANCREATIN, ETC., SO FREQUENTLY FAIL.

An international specialist whose orticles on sionach trouble have been printed in nearly every language, recently stated that to freat the average case of stomach trouble, indigestion, dyspepsin, etc., by doctering the stomach. Eiling the pain with opiates, or by the use with a trifficial sids to digestion such as pepsin and paperentin, was just as foolish and macless as to attempt to put out a fire by throwing water on the smoke, instead of the fire. He claims, and facts seem to justify his cisim, that nearly nine-tenths of all stomach trouble is due to acidity and food fermentation; and that the only way in which to secure permanent relief is to get rid of the cause i.e. to neutralize the acid and stop the fermentation. For this purpose he strongly recommends the plan now generally adopted throughout Europe of taking a teaspoonful of ordinary bisurated magnesia in a little water immediately after eating or whenever pain is felt. This immediately neutralizes the acid, stops the fermentation and permits the stomach to do its work in a normal manner and thus by removing the cause, enables nature to quickly restore the inflamed stomach liming to a perfectly healthy natural condition. For the convenience of travellers it may be noted that most druggists are now able to supply bisurated magnesia in 5 grain tablets, 2 or 3 of which will almost instantly relieve the most violent attacks of indigestion. Uncle Wiggly.

The alligators had climbed up the tree with the big hat, and, after sending Uncle Wiggly the note, they had waited until he came to the trees. Then they dropped the hat down over him and sat on it.

Ten Children Killed Outright, Others Buried in Wreckage

London, June 14—The bombing of a schoolhouse furnished one of the most pitiful scenes in the whole air raid. The bombs struck the roof squarely, cutting clean through and passing through two classrooms, one above the other, killing some children but sparing the majority. It finally exploded with terrific force in a room on the ground floor where there were 64 little children, of from 5 to 7 years of age, 10 of whom were killed outright and all the others more or less injured.

The room was 36 feet by 24 and the

Horse Broke its Neck

Dear Uncle Tom—This is my first letter to a club and the first time I have written to any club. I am 13 years old, and I am in the sixth grade. A friend told me about this club and I thought I would try and join it. One day a friend and I were out riding horse back and we were going quite fast when the horse fell down and of course we fell off and the lucky thing was we did not get burt. We kicked at the lorse and It would no get up so we ran home all out of breath to tell my father and he went at once to see about the horse. And the horse was dead, it had broken its neck. I never rode a horse for a long time after that.

Dear Uncle Tom—I received my club badge last mail, and thank you ever so much for it. I have been staying home for three weeks now because I had to help plough and seed grain. I have plowed about thirty acres alone with a walking plough. I like plowing very much. I've got three borses, one pony, two colts, one is a year old. The other is just two months old. My birthday was on the 14th and I got a few presents. I will try to get the twelve boys and girls to Join your club by next week. The lext letter I send, I will send in the names. I must bring my letter to a close, wishing the club every success.

Says Dr. Cassell's Tablets Cured His Dyspepsia Completely.

Sergeant Duncan MacNeil, of the Canadian Expeditionary Force, writing from Europe (his home address is 116 Pleasant-street, Hallfax, N.S.) says:

"For siv years I suffered from frequent attacks of dyspepsia, often being in bed for days at a time. When the war broke out I joined the Expeditionary Force and came to England. I had not been long there however, when my old trouble returned, and I had not been long there however, when my old trouble returned, and I had to go to hospital. While in hospital a friend told me of Dr. Cassell's Tablets, and I decided to try them. The first box brought such pronounced relief that I continued the treatment. To make a long story short a complete cure was effected."

A free sample of Dr. Cassell's Tablets are the surest home remedy for Dyspepsia, Kidney Trouble. London. June 14.— The Messines offensive was the most successful attack the British have yet made, every single objective that was marked in the preliminary plans having been attained, said Major General F. B. Maurice, chief of military operations at the war office, in his weekly talk today with the Associated Press.

Comparing this assault with the Somme battle, Gen. Maurice stated the British gained on the first day more than twice the ground captured in the first four days of the great conflict along the Somme, while the British casualties at Messines, using the same periods for comparison, were only one fourth what they were in the Somme fighting.

Gen. Maurice was most optimistic, remarking that the British successes were steadily growing greater, and adding:
